

Footprinter Foam Casting

An **accurate casting** system
without expensive equipment to buy.

True custom orthotics. With Amfit's patented Foam Casting technology, you can easily provide patients with precise-fitting, biomechanically-balanced orthotics.

Low-cost solution. Amfit carries your inventory and stores the digital 3D patient foot files for you. We provide quick turnaround of a wide variety of custom orthotics.

Get started immediately. Our turnkey Starter Package is only \$30. It includes three Footprinter boxes (replenished with orders), office marketing materials, and full instructions.

Easy modifications. Our detailed order form allows you to request adjustments such as metatarsal wedges or heel lifts for a superior orthotic.

Selling 15+ pairs per month? Ask about stepping up to the Footfax Digitizer at no additional cost.
