

# Orthotic Fabrication System

**Design** and **fabricate** custom orthotics...  
with your own **in-office fabrication system.**

**Perfect-Fitting Foot Orthotics.** Be in complete control of your patients' orthotics (both accommodative and functional) from fitting to fabrication. The Amfit Orthotic Fabrication System consists of either the Footfax Digitizer or Impress Scanner and CAD/CAM mill—this one system can fabricate orthotics for most every condition.

**Easy-to-use "Correct & Confirm" Software.** The system is simple to operate. Amfit's Window-based software gives you unprecedented flexibility to customize the digitized foot contour with precise, fast, and repeatable results.

**Increase Your Profits.** With Amfit's Orthotic Fabrication System, you can expand your practice with the flexibility to serve both professionals and patients.

Your purchase includes on-site training, and a two-year limited warranty.

Please ask for a copy of Amfit's warranty for complete information.

Affordable lease options available.
